Becoming a Follower is easy

Step 1

Choose your Top Traders ranked by performance, remuneration model or number of Followers.

Step 2

Simply drag and drop up to 5 Top Traders into your portfolio.

Adjust your portfolio by adding and removing traders at any time according to your needs.

Use our Loss Protection and protect your account balance.

Step 3

Start the automatic execution on either your live or demo account.

Done! Now follow the automated trades of your Top Traders and copy their trading strategies.

- 1 Select the period, the career level, the remuneration model, or the trader type (Virtual-/Real Money), or filter by popularity directly to find our most popular Top Traders.
- 2 Sort the rankings by profit/loss, maximum draw-down, Risk Score, number of Followers or another relevant indicator.
- 3 The ayondo Trading Career will simplify the selection of your Top Trader. The more flags that are filled, the higher the Top Trader is in the Trading Career.
- 4 Click on the Top Trader's name to take you to the profile of the trader: Here you can learn more about the strategy, asset allocation and historical performance achieved by the Top Trader.

Trading Career

- The 5-step Trading Career rewards experience, risk-aware trading and a good performance.
- To move up the Trading Career, both a positive performance and good risk management are required.
- To achieve the highest career level, traders must have traded for at least one year with ayondo.

Trader Risk Score

- Use the Risk Score to obtain some additional insight into the risk behaviour of Top Traders. With the Trader Risk Score, Top Traders are classified into 3 risk categories. Traders can have lower (1-4), moderate (5-7), or high (8-10) risk.
- The TRS takes into account various factors, but primarily the total size of a Top Trader's positions relative to the account balance and the way this relationship has evolved historically.
- The TRS provides Followers with an indication of the associated risk (and consistency) of a Top Traders' money management.
- Social Trading meets your individual risk preferences. You decide what risk you are comfortable with and are notified as soon as one of your Top Traders no longer matches it.

Create your portfolio

The screenshot displays a trading platform interface. On the left, a 'Choose your traders' list shows various traders with their names, profile pictures, and performance percentages. A blue arrow labeled '1' points from the 'TrackableTrader' entry to the 'Tim TopTrader' card in the portfolio selection area. The portfolio selection area shows three cards: 'Tim TopTrader', 'Social Trader', and 'Mr. Investor', each with a gear icon labeled '2'. Below these are two empty slots labeled 'drag trader here'. A performance chart below the portfolio shows a blue dotted line representing the historical capital curve, with a legend at the bottom identifying the lines for 'Tim Top Trader' (purple), 'Social Trader' (green), and 'Mr. Investor' (red). A blue circle labeled '3' points to the blue dotted line. At the bottom, there are two buttons: 'EXECUTE ON DEMO ACCOUNT' and 'EXECUTE ON LIVE ACCOUNT', with a blue circle labeled '4' pointing to the latter.

Your Top Traders, always in view

Tips for Followers

- ✓ **Follow several Top Traders**
At ayondo, you can build a portfolio of up to 5 Top Traders. This gives you the opportunity to combine several signal providers and to participate in different trading strategies and markets.
- ✓ **Note the Trading Career**
With ayondo, all Top Traders are expected to climb the Trading Career. They have to prove their trading skill with a positive performance and good risk management in order to reach the top. Traders in the upper stages of the career have already proven their skills over a longer time period and are thus more attractive to Followers.
- ✓ **Note the Score**
The Risk Score reveals more about the risk behaviour of Top Traders. Changes in the risk scores provide information about any changes the trader is making to their trading strategy or risk behaviour.
- ✓ **Keep a close eye on your account**
Trading is demanding. As Followers, you should always keep an eye on your Top Traders and make any adjustments as needed.
- ✓ **Note trader types**
With ayondo, Top Traders can trade with both virtual money and real money. With a minimum deposit of £2,000 Real Money Traders are highlighted in the rankings with a special "R" badge.
- ✓ **Take a look at the remuneration model of the Top Traders**
The performancebased model is more suitable for traders that follow a long-term trading strategy, whereas the volumesbased is suitable for short-term strategies.

- Generate additional income through your Followers
- Create your track record and increase your remuneration as you climb the ayondo Trading Career
- Make a deposit or withdrawal quickly and securely

Real Money Trader

- Make the most of your trading: As a Real Money Trader use our trading platform TradeHub®
- 170 indicators and 13 different chart types for an efficient analysis
- With a deposit of £2,000 you get a badge on your profile that identifies you as a Real Money Trader. Real Money Traders are more appealing to Followers
- You get a higher percentage share of remuneration
- You can choose between performancebased or volumebased remuneration model

Virtual Money Trader

- Start your career as a Virtual Money Trader for a risk-free start for alternative trading strategies
- Enter your trades as a Virtual Money Trader on wetrade.ayondo.com
- Start your trading with £100,000 virtual capital
- Switch to Real Money Trader status and take advantage of higher earnings

The ayondo Trading Career

- As you climb the 5-stage Trading Career, your share of remuneration also increases
- The highest career level can be reached only after trading for at least 360 days

Performance and risk requirements of the Trading Career:

Top Trader Career Level	Time Period	Volume traded	Maximum drawdown	Whole performance	Performance
 Street Trader	30 days	5	25.0%	Positive	0.5%
 Advanced	60 days	5	25.0%	Positive	1.0%
 Professional	90 days	10	25.0%	Positive	1.5%
 Risk-adjusted	180 days	15	25.0%	Positive	3.0%
 Institutional	365 days	30	25.0%	Positive	6.0%

The Trader Risk Score provides an insight into your personal risk behavior.

- In addition to the career levels, each Top Trader is also rated by the Risk Score which takes into account various factors, but primarily the total size of a Top Trader's positions relative to the account balance and the way this relationship has evolved historically.
- Variations in risk behaviour and trading strategies can be identified through changes in the Risk Scores

Only as a Real Money Trader you are able to choose between the performancebased and volumebased remuneration model

- Traders in the upper stages of the career are more attractive to Followers and have the chance of a higher remuneration through a higher number of Followers
- There is a higher percentage share for Real Money Traders with the volume-based model

Keeping your money safe is our priority

What do we do for security of your funds:

- Trade with negative balance cover: in the event your losses exceed your account balance, we will not seek to recover those losses from you.
- We have an additional insurance of up to £1,000,000* per client, free of cost, in excess of the standard FSCS cover of up to £50,000.
- Retail client funds are held in segregated accounts with reputable banks and are completely separate from company assets.
- Daily internal reviews are carried out to ensure that all financial commitments to customers can be fulfilled. Regular client money reports are submitted to the FCA, proving our solvency.
- An annual review of client funds is carried out by an independent external auditor.

* The insurance cover of up to £1,000,000 applies to only FSCS eligible claimants.
